KENTUCKY.

Gen. Grant telegraphed to the Kentucky Legislature yesterday that the towns of Hickman and Columbus had been invaded by rebel troops from Tennessee. In reply to an inquiry addressed to Gov. Harris of the latter State, that functionary said that the invasion was made without his knowledge or consent, and that he had roquested Jeff.

Davis to authorize the withdrawal of said force. This is, by all construction, an odd state of affairs. Kentucky invaded by Tennessee in profound ignorance of the circumstance. If Gov. Harris tells the truth, then Kentucky is actually invaded by the rebel government at Richmond.

The Legislature of Kentucky has metand received Gov. Magoffin's message, which is pretty thoroughly in sympathy with secession, though he promises to carry out in good faith the will of the Legislature.

Four thousand are at Sikestows; and where Jeff Thompson is, or how many he has in his command, the man did not know. He wasked all the way up on the banks of the Mississippi, subsisting on a few crackers. He avoided white men and only saw a few negroes, who said their masters told them to keep close at home, for if the Liuchinite's get hold of them they will send them to Gube and a few crackers. He avoided white men and only saw a few negroes, who said their masters told them to keep close at home, for if the Liuchinite's get hold of them they will send them to Gube and sell them to get money to pay the expenses of the war. The rebels talk gilbly of hanging Liucoin, and propose very soon to take Bird's Point and St. Louis. They suppose that they are specially destined for that purpose. For some time past large num bets or wagons and males have been arriving at New Madrid, and there is no doubt that they would carry out their purpose if they could. Coffee is a dollar per pound, and great fears are expressed that they will soon be out, when they propose to make, if possible, a substitute of the sweet potato.

Troops have been concentrating here rapidly within the last two weeks. There are probably as many at Cairo and Bird's Point as there have even been necessary to compy a point opposite Columbus. She returned tool, Machritur's regiment and a battery, to compy a point opposite Columbus. She returned tool, when they propose to make sent down the teast to week or two.

Brought no sight to his eye and no sound to his UNIMPORTANT OPINIONS. nother Letter from Mr. Russell, The London Times of the 30th ultimo brings another letter from the special correspondas another letter from the special correspond-ent of that paper. Its leading features of in-terest are the description of General McClel-ian's army reforms, and Russell's emphatic de-nial of the rumored English de nand for a free rates stand before the secret surppeas or a good deal of the strength, of solicit they constell in ac-rual numbers; and it is a poor cover to their weakness to put forward the assertion that only a portion of their force was engaged, when it is notorious that they had sent to all quarters for relieforcements, and, above all, when it is considered that, by using all the quarters for reinforcements, and, above all, when it is considered that, by uaing all the men at their disposal, they could have forced the mass of the Federal army to surrender prisoners of war, and have occupied the capital. Their operations up to this time indicate hesitation and want of vigor; but it is just possible they may be preparing to strike some great blow.

THE RESIDENCE OF CONTRIBUTE. NO FREE COTTON FORT DEMANDAD.

The reports industriously circuisted some American journals that Great Brits has demanded or solicited the establishme of a free port for the exit of cotton are utrue. There is no foundation whatever fe such statements, which are propared by the same people who originate the stories of Amiral Milne's dispatches and views in roisence to the blockeds. The indifference of foreign politics which has marked the precedings of the congress has been a suitable commentary on the mode in which America affairs have been treated in Europa. Mr. Sam nor was serverely rebuked for alluding to the probable effects of the increase of the Morri Tariff on the sentiments of France and England; as if the Senste regarded such an allusion as a confession of weakness or an indecent introduction of an unsuitable element of consideration. ascof the British Ship Allins ning the Blockade. Our telegraphic dispatches this morsh nounce by the way of Richmond and I ville that the British ship Alliance ha ceastally run the blockade at Beaufort, 2 Carolina.

exclusively for the purpose. The sixth build ing is devoted to Taville Pabrics and Sewing Machines, and is of the same size as those above. The seventh building is of the same size, and will be occupied with horidenitural products, an immense show of which is expected. The collection of pears of itself will form a new picture, and we shall be under no obligation to ourselves to send specimens, done up with gum arabic to put on an artificial gloss. The eighth is Mechanical Hall, forty by one hundred feet. Beyond this, and adjoining, will be a large areas for the display of implements and machines. We next come to Fower Hall, near the east side of the grounds. In this is an engine of forty horse power, from the shops of P. W. Gates & Co, which will be running for the testing of all machinery requiring power, such as cornshellers, Sorghum mills, etc.

Water is now assured beyond any peradventure by the sinking of four wells, one of which has over thirty feet of water in it, and also by pumping works and pipe leading from or Lany Jake, which arrived recent-cort, reports the death of a passen-d Thomas O'Connell, who em-Benous, Mich., for this city. He ralid, and died on the 2d inst. Ou-BECRUTES FOR THE STURMES RIPLES.—Twenty-five new recruits for the Sturges Rifes left
for Washington last evening. The squad was
composed of picked men and embraced many
of the members of the old Light Guard. Nelson Thomseson, Esq., whose heroid father was
at the battle of Bull Run, was one of the number. No finer company of men have left the which has over thirty feet of water in it, and also by pumping works and pipe leading from the South Branch.

The amphitheatre will seat over five thousand people, and under this a large number of restaurants are being fitted up in the first style of the art. The show ring for stock is close to the smphitheatre, a decided improvement so long as people do not carry opera glasses with them. Seats for reporters will be reserved near the centra.

Ample arrangements are made to forge exhibitors of stock, with their sttendants, as well as others in charge of goods.

The ground-joecupy eighty acres, yet the arrangements are such that all can be seen with out extra trouble. THE METROPOLITAN HOTEL -We recently The Metracolipan Horm.—We recently referred to the extension in their premises gained by mine host Skinner in the addition of the building next south on Wells street, known as May's Hotel. The change was greatly needed by the pressure upon the accommodations of the Metropolitan, large as it was originally. It is finely located, capitally managed, and in its class of houses has no asperior in the West. All strangers who visit Chicago during fair week, and take bed and board at the Metropolitan, will award it a premium. rangements are such that all can be seen with out extra trouble.

The camping ground, on the south side, is simple for ten thousand people. The entry cherks are very busy to day, recording the en-tries, and by the first day of the Fair every thing will have stiained a forward position. Saddleny Hardwaic.—This is the harvest of all who have to do with the outilt of our armies either of foot, or "mounted has camelry," and in the latter connection it may be estated that Mesers. Hayden, Key & Co., the extensive manufacturers of saddle, harness, and carriage materials, are now supplying Mesers. Turner & Sidway, who have an immense contract from Government, with Saddlery Hardware, at the rate of one thousand sett every ten days. The Turner & Sidway horse accountrements have a wide reputation and "circulation," and it is only justice to accord to Mesers. H. K. & Co. their share.

Trial of Scales.

We have seen a statement of the recent official trial in one of the principal counties in this State, of the finest twenty n'th Grain and Stock scales. They were the ordinary outdoor wagon scales, and were tested just as they were found in common use, thus making it one of the best possible practical tests. Stateen of them were of Fairbanks's make, and nine of various other kinds, including some which have intelly been claimed as superior to Fairbanks's. The result showed a remarkable degree of accuracy in those of Fairbanks's make, while all others were condemned as not sufficiently accurate for use. The importance of this fact will be appreciated without comment. We publish it because it is one in which the public are interested. A San Accident.—A little boy five years of sge, as med Joseph Rothgerber, son of Mr. Rothgerber, proprietor of a millinery establishment at No. 200 South Clark street, was run over and very seriously injured, yesterday afternoos, at the corner of Van Baren and Cark streets. A feam was passing at the fine-loss.

termoon, at the corner of Van Buren and Chrk streets. A feam was passing at the fime, loaded with two sticks of very heavy timber, fifty feet in tength, fastened at one end, beneath the hind axietree, by means of a chain. The little feilow, eager to get a ride, jumped upon one of the sticks, between the wheels. The driver, who has of late been much annoyed by this practice, ordered the boy off. In obeying the injunction, his foot slipped and he fell, the hind wheel passing directly over Meeting of the Board of Education.

An adjourned meeting of the Board of Education was held yesterday afternoon at their rooms. Present, Messra Hoard, Haven. Fater, Dore, Wentworth, Steele, Carpenter, Taft. Absent, Messra Mossley, Newborry, Sturierant, Wahl, Sheahan, Higginson, Ward. The minutes of the last meeting were read and approved.

The driver, who has of late been much annoyed by this practice, ordered the boy off. In obeying the injunction, his foot slipped and he fell, the hind wheel passing directly over his back. He was taken to his home and physicians summoned who pronounce, his condition as most critical. His escape from instant death was almost mirrorulous. The wag on and tim her weighted about two tons.
